Rocío Albani

Full Stack Developer

+1 years experience as a Full Stack Developer focused in Front-End. Teamwork and team leadership mindset is backed by my past as a Sports Broadcaster and I implement that in my projects as a developer. I like to create applications that are friendly, intuitive and easy to use for any type of use.

MOST RECENT EXPERIENCE

Front End Developer - Manga Coffee

JULY DE 2022 - [Buenos Aires, Argentina] [Henry]

- Organize a team of 8 developers to work with focus and accomplish within the specified time the bootcamp requirements.
- Develop the front end section of the web application using Typescript, React, Redux Toolkit
- Implemented new technologies.
- Design and build the functionalities that the user has access to like read mangas, rate them, leave comments and add them to favorites. And the same with the products section.
